RE: **DEADLINE FOR BRIDGE RATING INFORMATION**

In accordance with the Code of Federal Regulations (Title 23 Part 650), all structures that are required to be inspected must comply with the National Bridge Inspection Standards and must be rated to determine their safe load carrying capacity. In order to comply with NBIS requirements, all information required to rate each bridge (data sheets and/or plans) must be received by the ALDOT Bridge Rating Office no later than **December 31, 2008**. All information required to rate each culvert (data sheets and/or plans) must be received by **December 31, 2009**. Each county that does not have all of the required bridge rating information submitted by the dates above will be found in non-compliance. The structures that need information for load rating are attached.

Please refer to the following guidelines when gathering and submitting information.

Required Info: Please submit all information for both bridges and culverts.

- Bridges require that the data sheets be completely filled out and submitted **when the plans are not available**
- Culverts require that the data sheets be completely filled out and submitted **along with the plans (if available)**
- When submitting plans, please include all of the following: Project Title Sheet, All Bridge Sheets, All Culvert Sheets, and any Standard Drawings. Half size copies of plans are preferred.

DATA SHEETS: Please fill out the appropriate data sheets in their entirety.
The most recent data sheets can be found by first going to the following website:
<http://www.dot.state.al.us> once at this site click on the following sequence of links:
(1) **Bureaus**, (2) **Maintenance**, and finally (3) **Bridge**.

PLEASE SUBMIT NEW AND UPDATED FIELD MEASUREMENTS - DO NOT SUBMIT DATA SHEETS THAT ARE OUTDATED!

Please contact the BRLT Office @ (334) 242-6500 if you have any questions.
